## PROVIDE CARDIOPULMONARY RESUSCITATION (CPR)

The Provide CPR course is designed for participants seeking to learn Cardiopulmonary Resuscitation (CPR) techniques and the use of an Automated External Defibrillator (AED) during emergencies. This unit covers the essential skills and knowledge required to perform CPR in line with the guidelines established by the Australian Resuscitation Council (ARC).

Participants will learn how to recognize cardiac arrest situations, perform high-quality CPR, and effectively use an AED to restore heart function.

This course is suitable for individuals in a wide range of roles, including workplace first aiders, healthcare professionals, and community members.

### COURSE TOPICS

- DRSABCD
- Recovery positions for infants and adults
- Cardiopulmonary Resuscitation (CPR) techniques according to Australian Resuscitation Council (ARC) Guidelines
- Operation of an Automated External Defibrillator (AED) during a cardiac arrest
- Incident reporting

### COURSE FEE

- The total amount is \$100
